

Prop Dusters

The Midwest Chapter News

President's Corner

Here it is, 2006!

Our meet schedule promises to be our best yet. We tried to put together meets that would interest everyone and would be well attended.

I would, in advance, like to invite all members and your families to our annual chapter picnic at Smoky's this summer. Last year we enjoyed a pig roast and chicken cook out. Wow was it a great time with great food! We'll be doing this again this year and hope you all can make it. There will be more on this as time nears.

I also hope to see all of you at our WINTER BASH on February 19. This is another meet not to miss. I think its our biggest of the year and will be a trophy event.

Please do your best to attend all our meets this year; it's FUN!

Hope this new year brings good health and happiness to all.

— Rick Neis, *President*

From the Webmaster...

The Midwest Chapter has a new address. It is www.aomcmidwest.com. Look to the website for past events, newsletters, member directory, motors and links. Contact me to display your outboard motor pictures and other information you'd like posted on the website.

— Dan Kruitiz, *Webmaster*

SERVICE BULLETIN

Number 18

May 21, 1947

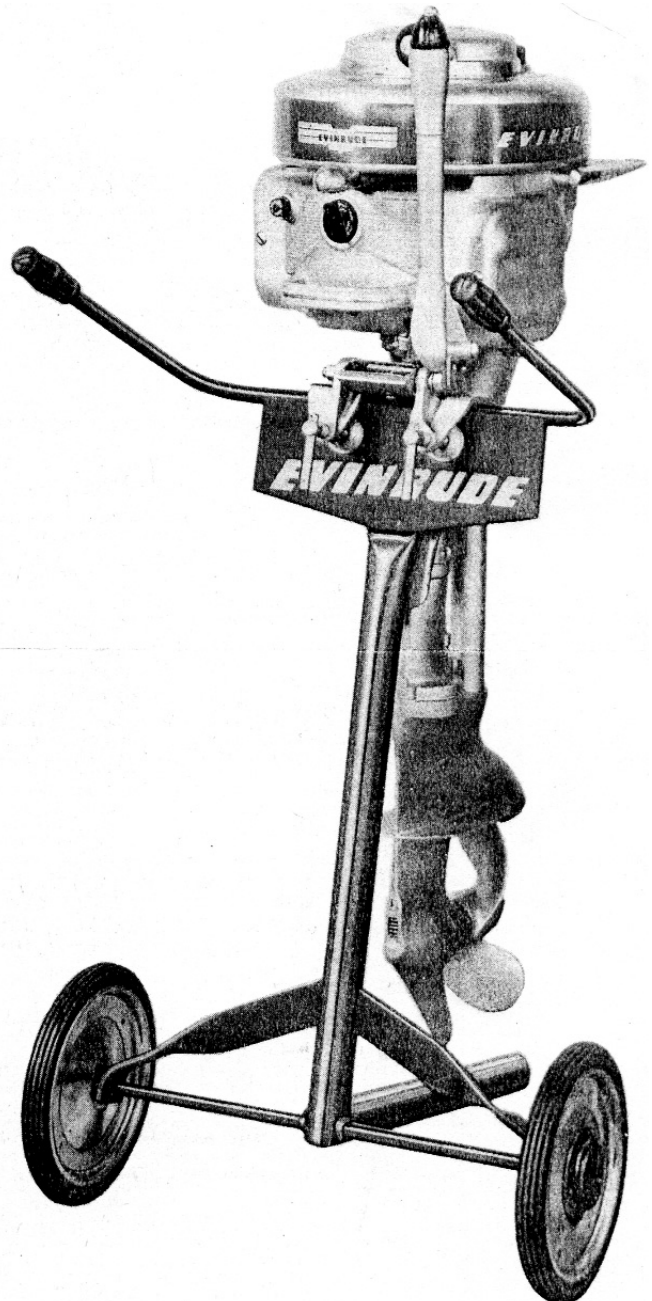

EVINRUDE HANDI-TRUCK

Do away with those tiring lugs of the outboard from boathouse or garage to the boat and back again. You'll like the easy, balanced rolling action of this light but strong, handy cart. It's really rugged...easily handles all models up to and including the Speeditwin.

One piece welded tubular all steel frame. Rubber handles. Aluminum wheels with firmly clinched, heavy rubber tires; sintered bronze bearings. Width (wheels and handles) $22\frac{1}{2}$ inches; height 39 inches; depth 22 inches. Weight 22 pounds.

Engineered by Evinrude technicians to take the punishment of continual rough usage. No joints to rattle, shake or collapse. Always ready to roll.

Suggested List Price \$10.00
Dealer's Net Cost \$8.00
f.o.b. Milwaukee, Wis.

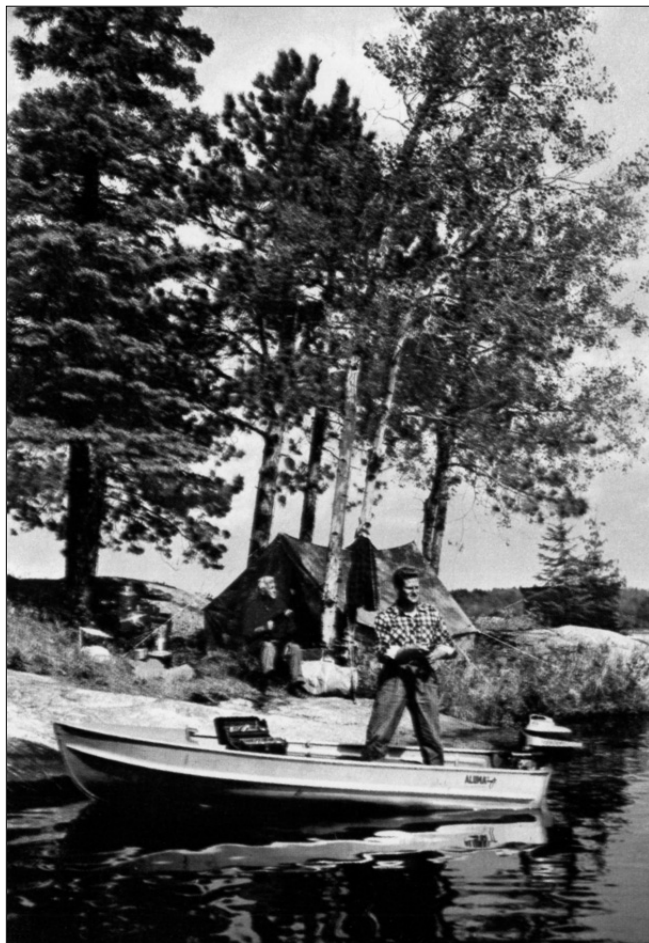

Part #675001

EVINRUDE MOTORS
Service Department

The farm boy said he only wanted two things in life — a pet to call his own and an outboard motor to go fishing. Well, he couldn't afford a motor, but he found a pet. It was a corn borer to whom he gave the name Motor.

Through the long, hot days of summer they were constant companions. But with the cooler days of autumn on the way, one day as they passed a

cornfield, Motor disappeared. The young boy became frightened, then frantic, as he looked and called to his pet, all without success.

He turned homeward at dusk, sad and brokenhearted. Early the next morning, however, the boy returned to the field, his eyes a bit misty. He called and called, and suddenly there was a slight noise from a tall corn stalk to his right. The sound grew louder, and the boy smiled with happiness — there before his eyes, “out bored Motor.”
